

Guns and consciousness

In memory of victims of elementary school massacre

What is wrong with us
Fallen in love with our guns?
Obsessed with an outdated right
“Of the people to bear arms”
Written two centuries ago
“A well regulated Militia to secure a free state.”
Is that why we worship guns?
When was the last time
People deterred the tyranny of their government
Formed Militia with guns in their hands?

Are guns legal for hunting?
How many rounds of ammunition
Discharged from a semi-automatic needed
For a prancing deer to fall and die?

It's not about security, liberty or constitution
Violence is engrained in our psyche
Villains are praised, mobs admired,
In vicious games and Hollywood crap,
Our Pop Culture is to blame.

Gun manufacturers are profiteers
Filmmakers, song writers too
Politicians all have strings attached.
Accomplices in gun related crimes.

How come no one in corporate media

Dares to rise above the fray
Ask the hard question
Why so much bloodshed in the name of freedom?
Morality of a nation is on the verge of collapse.

Add to this shenanigan a broken mental health
Scarce budget for needed care
20 percent of population affected yet ignored every day.

Dystopia is in the making, stage is set
For a young anti-hero, a Joker of the sort
Demented villain and fully armed
A lethal blend of delusion and bullets
Snaps into action, to take charge.
And in a matter of minutes
Tragedy is in sight, carnage everywhere.

Blood of children, stain on conscience
Fallen angels wallowed in vain.
